for organising a Seminar for B.Tech Students on Internships and forming community on the 13th of October 2018 at Manipal University Jaipur, India

HITESH PAMNANI

CEO, Novlence Core

DR. R S SHEKHAWAT

Director, Manipal University Jaipur

ABOUT NOVLENCE CORE AND THEIR SEMINAR

The session began with the talk by Gaurang Pancholi. He introduced our company, Novlence Core, domain and the services offered.

Then, the discussion was succeeded by Hitesh Pamnani. He began with the importance of skill development in career. He motivated the students that if they want to excel in their career, they'll have to take extra steps and develop their skills accordingly. Then, he asked students as to how see themselves after graduating from the college. Some of them wanted to become Software Developer while few of them showed interest in Cyber Security. Next, he made them aware about the community initiative planned by the company. He offered them various advantages such as internships, job opportunities, freelance consultancy and lot more.

As an addon, the session was took over by Kuldeep, an experienced game developer. Then, he introduced Unity, a platform to design 2D and 3D games. To spark the interest, he even showcased the demo of the first of the games developed by him.
